The company was established by Amar Bose in 1964 and is based in Framingham, Massachusetts. The 2201 was designed to be located in the corner of a room, using reflections off the walls to increase the apparent size of the room. The purpose of this design was to achieve a dominance of reflected over direct sound in home listening spaces. I gathered them in one room and said, If we dont do anything, it will probably kill us. But if we do something, we have no credibility since were just a small company and we cant do anything against this. I said I think we oughtta do something. I wanted a vote. It was unanimous in favor of taking action. July 12, 2013. Retrieved July 21, 2019. Retrieved 20121021. American City Business Journals. Retrieved January 15, 2020. Retrieved August 21, 2016. Among its competitors in the fragmented U.S loudspeaker industry, Bose is feared and disliked. Boses image isnt helped by its hardline tactics. It has also sued many of its competitors for mimicking its ads or the look of its products. Bose is

litigious and they patent everything that moves, says Andrew Kotsatos, president of Boston Acoustics Inc., a speaker maker in Peabody, Mass. Thomas DeVesto, president of Cambridge Soundworks Inc., a Newton, Mass., speaker maker, says I have to be careful. Every time I say something about them, they sue. To settle a Bose lawsuit, Cambridge had to agree to stop running ads boasting that its speakers were better than Bose at half the price. Associated Press. October 10, 2014.
